

# Merry Christmas to Everyone and a Very Happy 2008

*This year has passed so quickly, it is hard to imagine that 2007 is almost over.*

*We feel very fortunate to continue working together from our home. Business-wise, we've had our best year ever. Martin has been working very hard to keep up with all the requests. The entertainment booking business continues to be really good, with almost 500 events this year. I have now been working with David Perkoff for 16 years (my how the time flies).*

*This is Lee Ann Womack whom Chris booked at the Hyatt Lost Pines and with Marvin Hamlish (below)*

*One of our biggest production projects was producing a DVD for DADS (Dept. of Aging and Disability Services) complete with hiring a script writer, actors and delivering 5000 training copies. Martin also produced numerous other projects including on location video shoots around Texas for EveryChild who provide services to children with disabilities and their families. We upgraded to High Definition video equipment and produced products ranging from marketing DVDs for Arabian colts, our nephew's roof thatching business in Suffolk, England, a cabaret production for Paige Davis (Trading Spaces) + others. This, in addition to our contract with The University of Texas (TX Center for Disability Studies) providing systems management & video services. Martin also developed and maintains a 350 page web site for the Texas Education Agency and we now host 13 web sites both for our services and for other clients.*

*Anthony, Sharon and Julius made a big move to Worthington (just outside Columbus, Ohio) from Portland, Oregon at the end of August. Anthony was approached by a headhunter for a British design company named Fitch. They offered him the position of Creative Director and within a six weeks period, they had bought a new house, sold their Portland home, sold a car, moved everything, including their Doberman and settled into their new home. Martin and I spent a few days with them just before they moved and I went up to visit them a couple of weeks after the move to offer help. Anthony had to jump in with both feet and continues to travel quite a bit, but he is loving it.*

*Ken is doing well too. He is still here in Austin and doing contract video game artwork and as his office is very close to David Perkoff's, I get to meet him for lunch quite often. He got a new car in August, as his other one was definitely on it's last legs.*

*We now have a new addition to our four-legged family. We got Troubador a friend and playmate. She is a German Shepherd, now 10 months old and she is doing great. Her official name is Bonnie Bracken. It is such fun to see them running around the yard together, playing ball and generally having a good time.*

*I continue to ride as often as I can. Dancer is still active and loves to get out for a trail ride. She still acts like a four year old at times, although she is now almost 24. Kan Daanz (KD for short) is doing well. He is definitely a more active ride than Dancer, but has turned out to be a lovely little boy.*
